

NU-STEEL
IND. (2008) LTD.

NS 936-D

26 Gauge & 29 Gauge

This is a low rib panel that is used for covering walls and roofs of existing wood buildings. This panel, along with CNC bent custom trims, can also be used for lining the inside of steel buildings for a clean and maintenance free interior. This strong and attractive panel is suitable for agriculture, commercial, and industrial applications.
